

NAG PRATHIK M G

Full-Stack Developer | AI/ML Engineer | Cloud & DevOps Engineer

+91-88926-86763 · nagprathikmg@gmail.com · linkedin.com/in/nag-prathik-m-g · github.com/nagprathikmg01 · nagprathik.dev · Bangalore, India

Career Objective

Final year B.E. Information Science student (**CGPA 8.5/10**) at NMIT, Bangalore, seeking a **Software Engineering / AI-ML / Cloud Engineering** internship to apply hands-on expertise in **full-stack development**, **Generative AI**, **RAG pipelines**, and **GCP/AWS** while contributing to real-world engineering environments.

Education

Nitte Meenakshi Institute of Technology (NMIT), Bangalore

B.E., Information Science & Engineering

Aug 2023 – May 2027
CGPA: 8.5 / 10.0 (till 6th Semester)

Ambika PU College, Puttur, Dakshina Kannada

Pre-University Course, Science (PCMCs)

2021 – 2023

94%

St. Joseph High School, Hunsur, Mysore

Secondary School Certificate (SSLC)

2020 – 2021

96.8%

Technical Skills

Languages: Java, C, Python, JavaScript, TypeScript, Dart, SQL, HTML5, CSS3

AI / ML: PyTorch, Transformers, LLMs, RAG, Agentic AI, NLP, Generative AI, Gemini API, Vertex AI, Prompt Engineering, Streamlit

Full-Stack / Web: Flutter, React.js, Node.js, Express.js, Vite, Tailwind CSS, REST APIs, Prisma

Cloud & DevOps: GCP (Compute Engine, Cloud Network, Vertex AI), AWS (EC2, S3, IAM), Terraform, Firebase, Docker, Git, GitHub, Vercel, CI/CD

Databases & Concepts: MySQL, MongoDB, PostgreSQL, Redis, Firestore OOP, DSA, System Design, Agile/Scrum

Projects

Adaptive Drone Navigation & Drift Detection [GitHub] [Final Year Project] | Python, PyTorch, Transformers, Streamlit, AirSim Jan 2024 – Present

- Engineered a **Transformer-based deep learning model** for real-time drone trajectory prediction, achieving **92% accuracy** across AirSim scenarios; **online learning** enables autonomous sensor-drift recalibration without full model retraining.
- Performed **EDA** and **feature engineering** on multi-dimensional sensor time-series data; built **Streamlit dashboard** displaying live drift metrics, per-epoch curves, and configurable alert thresholds.

GeoQuest — AI-Driven Travel Planner [GitHub] | LLMs (Claude 3.5 + Llama 3.1), NVIDIA NIM, Node.js, Express.js, PostgreSQL, Redis 2025

- Architected **LLM-powered itinerary engine** on **NVIDIA NIM**; multi-API pipeline (OpenStreetMap, Wikipedia, Google Maps); full **REST API** backend with Prisma + PostgreSQL + Redis caching and **39 Jest tests**.

GreenCart — Agentic AI Sustainable Shopping [GitHub] [Live] | React, JavaScript, RAG, Agentic AI, NLP, Vercel 2025

- Built **custom RAG pipeline** with **NLP-based intent parsing**; **3 autonomous AI agents** (Analyzer, Search, Education) surface real-time carbon-footprint metrics and eco-alternatives; live on Vercel.

ClubOS — Cross-Platform Club Management [GitHub] | Flutter, Dart, Firebase, Firestore, fl_chart 2025

- Architected **cross-platform production app** (Android, iOS, Web, Windows, Linux) with **Firebase Auth**, **role-based access control**, real-time Firestore sync, and **10+ modules**: Kanban, budget tracker, live chat, analytics dashboard, and PDF certificate generator.

Experience & Leadership

AI Sustainability Intern | 1M1B – AICTE – IBM SkillsBuild | National Internship Portal Dec 2025 – Jan 2026

- Nationally selected; applied **IBM Granite LLMs**, **Agentic AI**, and **RAG** to real-world UN SDG challenges; completed 8 modules on LLM fine-tuning and responsible AI – co-certified by **AICTE & IBM SkillsBuild**.

Google Student Ambassador – Top 250 Globally | Google Developer Student Clubs, Bangalore Jul 2025 – Present

- Ranked **Top 250 worldwide**; conducted **5+ workshops** on GCP & Generative AI for **100+ students**; co-organised **2 hackathons** with Google developer programmes.

Marketing Head, IEEE CS Chapter | **Head of Events, Team Adwaita** | **PR Lead, DataWiz & CloudZilla** Dec 2024 – Present

- Executed **6+ technical events** on AI, cloud, and data science with **200+ participants** each; managed cross-functional student teams and speaker logistics.

Certifications & Achievements

- Google Cloud Engineering Certificate Google Cloud
- Prompt Design in Vertex AI Google Cloud
- Gemini Multimodality & Multimodal RAG Google Cloud
- GenAI Apps with Gemini & Streamlit Google Cloud
- Build Infrastructure with Terraform on GCP Google Cloud
- AWS Cloud Foundations Training Badge Amazon Web Services (Oct 2025)
- AWS Cloud Architecting Training Badge Amazon Web Services (Nov 2025)
- Networking Basics Cisco (Oct 2025)
- Back-end & Database Dev | Data Structures & Algorithms | Planning & Designing UI Simplilearn JFSD (2026)
- Database and SQL Infosys Springboard (Mar 2026)

★ **Top 250 Globally** – Google Student Ambassador ★ **National AI Internship** – AICTE + IBM SkillsBuild ★ **CGPA 8.5** | 94% | 96.8%
